54½ - This man wears a uniform  
 he is singlehandedly planning/analyzing field operations  
 at least 2 levels down, i.e., skipping echelons  
 but this seems to be acceptable to his lieutenants  
 who respect - and possibly revere him.

stocky

definitely "in-charge"  
 Confers with civilian-attired men

area  
 open  
 spread out but contained to the West by natural boundary

4 1/2 - man flew into this area, has escorts with him

401 - like staff officers

hard  
hardened  
no weak / soft spots  
concerned only with his  
profession - arms  
not a 'political animal'  
loner, doesn't mind  
places himself in position to  
be optimal for planning -  
moment-moment wants to  
know what's happening  
- disposition of assets  
- focus  
- both sides  
tactical vs strategic  
has no problem executing  
orders even if he believes  
them to be stupid.

imposing, even though not tall

401 - SSO officer

S 4 1/2 - there is an operation in progress toward the West,

sleeps in the field but to be close  
to ops and to get away from  
"head shed" in built up area.

AOL - impression of a Sov officer ~~in~~ in a  
"foreign" but <sup>politically</sup> controlled environment LIKE - LA or AFGAN

does not coordinate with  
peers - there are none present  
all are subordinates.

Subordinates are used to his  
continuum presence -

he makes them uncomfortable  
but they trust his experience  
and are battle savvy.

Does not get directly involved in  
engagements. Kept abreast of  
operations as they occur.

Lieutenants are capable - professional

big boned  
brutish

4 1/2 - There are parallels with Singlet: ~~about the~~

this man is psychologically similar in many ways. Heris

brat wrinkled  
does not wear hat

4 1/2 - this man's focus is on the area to the West (hills/mts). There are problems here which require analysis/planning and action. At least once in the past, this man has flown above and to the east of the problem area (not-recon).
